For Best Results:
Do not exceed the scale’s maximum capacity of 110lb/50kg. Overloading scale can cause permanent damage. Avoid exposure to extreme heat or cold. Store in a clean, dry location. Dust, dirt and moisture can damage electronics and cause malfunction. Avoid using in close proximity to strong radio wave emitting devices. Hold the scale steady until red light illuminates to obtain weight.

Instructions for use:
Press lock-out switch up to “ON” position.
Press the $ key.
Wait until “0.0” is displayed.
Use the [M] button to switch from lb to kg.
Using the scale, lift the luggage and hold it steady until the red light illuminates (3 seconds) and HOLD is displayed on LCD. Set the luggage down and read the weight.
Press the $ key to reset to zero and weigh another bag.
To turn off, press and hold the $ key.
Move the lock-out switch down to the “OFF” position.

Specifications:
Capacity: 110lb/50kg
Readability: 0.2lb/0.1kg
Weight units: lb/kg
Auto-off: 60 seconds
Operation Temp:
  32° - 104° F / 0° - 40°C
Scale dimensions:
  3.75” x .85” x 1.25”
  96mm x 21.5mm x 32mm
Net weight: less than 3 ounces/85g
Power: 2xCR2032 (included)

Troubleshooting:
Inaccuracy or malfunction is most likely the result of low batteries, overloading or operating on an unstable surface.

The display will signal a problem:
[Lo] = Change batteries
[EEEE] = Scale is overloaded. Remove excess load/weight immediately.
